All hours are billed in realtime; however, our estimate can prepare clients for what we expect.

Taking the first Step

The first step of working together is an on-site consultation. Here is where we will tour your home, discuss ideas, potential solutions for design dilemmas, talk about your style and budget, and review the scope of our work. At this time, we will also take measurements of the home and show you some examples of our design deliverables.

Testimonials

"Not only was Nicole able to design an office/dining/mudroom space that completely works for our family, but she was also able to create a beautiful, cohesive aesthetic from what little direction we could offer with regard to our style and taste. What Nicole was able to glean from our Pinterest boards and incorporate into her renderings for a play area, living room, and bedroom was so impressive and exciting, it is clear to us and to everyone who has seen our home what a talent Nicole really is, which is to say nothing about how wonderful she is to work with."

—Michael R.

We wanted to completely refurnish and redecorate our new condo and didn't know where to begin, so we hired Nicole of Three Sparrows Design to assist us. This proved to be one of the best decisions we've ever made. From space plans to suggestions for furniture, color schemes, window treatments, and lighting, we couldn't be more pleased with the work Nicole has done for us. She was adept at blending our different style preferences, collaborated with us every step of the way, and replied to all of our many questions and ideas promptly---all with graciousness, tact, and good humor. We love our new home and highly recommend Nicole for any design needs.

Without question, we would hire her again.

— Rebecca S.
